Over the past twenty-four years, Leadership New Mexico has identified and enhanced leaders throughout New Mexico by providing a forum for participants to strengthen their knowledge of challenges and opportunities facing our state. Leadership New Mexico participants and alumni are from diverse ethnic, gender, regional and business backgrounds and continue to grow and touch all of New Mexico’s communities, large and small. There have been more than 1,700 participants from 87 communities across the state. Leadership New Mexico celebrates the legacy of “Shaping New Mexico, One Leader at a Time.” It is through program graduates like Nick and Monique and companies like TriCore and Rhodes Group that we create a better future for our great state. Headquartered in Albuquerque, TriCore has served New Mexico since 1998. TriCore offers 2,900+ state-of-the-art clinical tests; participates in important international research and clinical trials; and through its information technology subsidiary, Rhodes Group, offers laboratory software and services nationwide. With our roots firmly planted in New Mexico, we are proud to advance medical science and improve the health of our communities.
